THIRTY-FIFTH ANNUAL REPORT  
OF THE  
TRUSTEES  
OF THE  
GERMAN HOSPITAL  
OF THE  
CITY OF PHILADELPHIA.

---

THE Trustees of the German Hospital are very thankful for the many evidences of approval of their work, received during the past year. This is the more gratifying because the large number of patients who have come to us from distant as well as neighboring localities, have so crowded the private rooms and public wards as to tax our accommodations to their utmost extent.

Our friends may remember that in the last report, reference was made to the pressing need of greater space for the use of convalescents, so as to conduce to their speedier recovery.

The institution did not possess the means to extend the building so as to provide more room, much less could it acquire a locality for this purpose outside of the city, but the Trustees, in their report, ventured to express the hope that some one would come forward and offer to undertake this desirable improvement, otherwise it would be impossible to make it.

In venturing to express such a hope, we well knew that only those who were fully acquainted with our work, and felt a deep interest in its advancement, could be induced to lend a helping hand in the accomplishment of our design. And we were not mistaken, for it was the same liberal-minded man, whom Providence has raised up as the faithful friend of the Hospital in every need, who volunteered to extend

# 35. Jahres-Bericht

des

## Verwaltungsraths des Deutschen Hospitals

in

### Philadelphia.

---

Die Directoren des Deutschen Hospitals sind sehr dankbar für die vielen Beweise der allgemeinen Billigung ihres Werkes, welche sie im verfloffenen Jahre empfangen haben. Dies ist um so befriedigender für sie, als die große Zahl der Patienten, welche sowohl aus der nächsten Nachbarschaft als aus entfernteren Orten zu uns gekommen sind, nicht nur die allgemeinen Krankensäle, sondern auch die Privatzimmer des Hospitals in ungewöhnlicher Weise in Anspruch genommen und öfters überfüllt haben.

Unsere Freunde werden sich erinnern, daß in unserm letzten Bericht des dringenden Bedürfnisses nach größeren Räumlichkeiten für den Gebrauch von Convalescenten Erwähnung gemacht wurde, nothwendig, hauptsächlich um solche Patienten einer schnelleren Genesung entgegen zu führen. Die Anstalt besaß nicht die Mittel, um das Gebäude diesem Zwecke entsprechend zu vergrößern, noch weniger konnte dieselbe für diesen Zweck eine Localität außerhalb der Stadt erwerben, aber die Directoren wagten es, in ihrem Bericht die Hoffnung auszusprechen, daß Jemand sich finden möge, der diese so wünschenswerthen Besserungen aus eigenen Mitteln unternehmen würde, da es sonst unmöglich sei, daran zu denken.

Indem wir es wagten, einer solchen Hoffnung Ausdruck zu geben, mußten wir sehr wohl, daß nur ein Mann, der völlig mit unserem Werk vertraut war und ein tiefes Interesse in dessen Förderung hegte, Veranlassung fühlen konnte, eine helfende Hand zur Ausführung dieser Pläne zu leihen. Und darin haben wir uns auch nicht getäuscht, denn es war derselbe großherzige Mann, welchen die Vorsehung als treuen Freund des Hospitals in jeder Nothlage erforen hat, der auch jetzt wieder das freiwillige Anerbieten machte, das Hospital-Gebäude in der Weise zu vergrößern, daß alle gewünschten und nothwendigen Besserungen in vollem Umfang zur Ausführung gelangen sollten.

Der Verwaltungsrath nahm dieses großmüthige Anerbieten mit Dank

the building in such a manner as would embrace all the desired improvements that were contemplated.

The Board gladly accepted this generous offer and approved the plans which were submitted, and gave the necessary authority for the work, which was commenced at once.

Many betterments which were not at first thought to be necessary, have been determined upon from time to time, and when they have been made, the whole Hospital building will be much better adapted to its charitable and blessed uses.

The discomforts attending such extensive changes and improvements were unavoidable, but we are glad to state that we have not heard of any complaints on that account. The Deaconesses have set a lovely example to the rest of the household. They had the hardest task to perform, for it was necessary for them to give extra attention to the patients. But to them their work is a labor of love and never becomes burdensome, and the sweet spirit which they exhibit has a happy influence upon all who come in contact with them.

The corner-stone of the extension was laid in the presence of a large audience, on the 3d of May, 1894 (Ascension Day), by Mr. John D. Lankenau, President of the institution, on which occasion the address was delivered by the Rev. Dr. Samuel Laird.

Although the work of the extension is not nearly finished, our friends will be glad to know what the most prominent improvements will be which are now under way. The good city of Philadelphia will certainly be enriched by a very valuable addition to the resources and appointments of one of its chief charitable institutions.

The new structure is in fact a continuation of the old building towards Corinthian Avenue, extending also towards the north and south, so as to give a frontage of 144 feet on that broad highway and present an imposing elevation. It is built entirely of sandstone, iron and cement, and is therefore positively fire-proof.

All the offices for the Dispensary departments will be removed to larger and more convenient quarters in the new building.

The rooms for the storage of drugs, compounding prescriptions, chemical and experimental laboratories, etc., will also be increased in size, and placed in a locality where there cannot be the least danger from accident by fire.

Ample accommodations will now be provided for the convalescent patients, the need of which was referred to in our last report with so much regret. On every floor in the centre of the building large spaces, facing the east, have been reserved for this purpose, furnishing plenty of room and good fresh air.

und Freude an, billigte die vorgelegten Baupläne und gab seine Beistimmung zum Beginn des Werkes, welches auch sofort in Angriff genommen wurde.

Viele Besserungen, welche zuerst nicht für nothwendig erachtet wurden, sind später dennoch nach und nach beschlossen worden und wenn diese sämmtlich ausgeführt sein werden, wird das ganze Hospital-Gebäude viel besser seinen wohlthätigen und segensreichen Zwecken dienen können.

Die Unbequemlichkeiten und Beschränkungen, welche mit so ausgedehnten Aenderungen und Besserungen verknüpft sind, können nicht vermieden werden, aber es freut uns, bestätigen zu dürfen, daß keine Klagen darüber laut geworden sind. Die Diaconissen haben in dieser Beziehung dem ganzen großen Haushalt das lobenswerthe Beispiel gegeben. Sie hatten die beschwerlichste Aufgabe zu lösen, denn es galt für sie, den Kranken ganz besondere Aufmerksamkeit zu widmen, aber für sie ist diese Arbeit ein Werk der Liebe, niemals überdrüssig, und der freudige Geist, welcher aus ihnen strahlt, übt seinen beglückenden Einfluß auf Alle, welche mit ihnen in Berührung kommen.

Der Grundstein des neuen Gebäudes wurde in Gegenwart eines sehr zahlreichen Publikums am Himmelfahrtstag, den 3. Mai 1894, durch Herrn John D. Lanfau, Präsident der Anstalt, gelegt, bei welcher Gelegenheit die Festrede durch unser Mitglied Herrn Pastor Dr. Samuel Laird gehalten wurde.

Obgleich der Neubau noch bei weitem nicht beendet ist, so werden doch unsere Freunde gerne vernehmen, worin die hauptsächlichsten Besserungen bestehen, welche jetzt im Bau begriffen und bestimmt sind, unsere gute Stadt Philadelphia durch eine werthvolle Vergrößerung der Hülfsmittel und Ausrüstung einer ihrer vornehmsten Wohlthätigkeits-Anstalten zu bereichern.

Das neue Gebäude ist factisch eine Fortsetzung des alten Baues in der Richtung nach Corinthian Avenue und dehnt sich gleichmäßig nördlich und südlich aus, so daß es an dieser breiten Hochstraße eine imposante Front von 144 Fuß dem Auge darbietet. Es ist gänzlich von Sandstein, Eisen und Cement zusammengesetzt und folglich absolut feuerfest.

Die sämmtlichen Kliniken (Dispensaries) erhalten größere und bequemere Quartiere in den geräumigen und luftigen Basements des neuen Gebäudes.

Die Räume für Aufbewahrung von Drogen, für Zubereitung von Arzneimitteln, für chemische Experimente im Laboratorium etc., werden ebenfalls bedeutend vergrößert und im neuen Theil des Gebäudes concentrirt, wo nicht die geringste Gefahr von Feuer oder sonstigen Zufällen zu fürchten ist.

Reichlicher Raum und Bequemlichkeit ist nun auch vorgesehen für Convalescenten, deren Mangel in unserm letzten Bericht mit besonderem Be-

The whole of the first floor of the Hospital will undergo almost entire reconstruction, a large part of it having formerly been used for purposes which will now be assigned to less prominent quarters.

One of the most important of all our improvements is the removal of the operating-room to a distance of twenty feet from where it formerly stood. The vacant space thus left is fitted up so as to afford better accommodations for the preparation of patients for operation, and where they may rest after the operation has been performed. All the facilities and appliances for the speedy and prompt treatment of the sick and wounded have been increased, so as to meet the growing demands made upon our Hospital.

This will give an idea of what is now being accomplished, but we hope our friends will come and see for themselves what has been done, after the improvements have been completed.

The number of admissions during the past year was 2380. Adding to these those remaining from the previous year, viz., 161, gives an aggregate of 2541, as compared with 2437 in the preceding year. In the Children's branch at the Mary J. Drexel Home, the number of new cases admitted was 311, and of those left over from the previous year 30, giving a total of 341. Among the latter there was a large number of cases of accidents, which are always treated free of charge; and altogether there were 1345 free patients received in the German and the Children's Hospitals. The visits to the Dispensaries of the Hospital were 24,629, and to those of the Mary J. Drexel Home 6539, giving a total of 31,168, or an increase of 2097 over the previous year.

The increase of surgical operations has been throughout very marked. In the Medical department we have continued the method of treating typhoid fever patients by means of the bath, and are glad to state with favorable results. This is a very laborious method, as it requires repeated applications day and night, but the good results are most encouraging. The new remedy of "Blood Serum" proposed by Dr. Emil Behring, of Germany, to "combat the dangerous disease diphtheria," especially among children, has been introduced in the German Hospital. Great credit is again due to our Trustee, Consul Charles H. Meyer, who, whilst engaged on his business trip, visited the principal laboratory in Germany to secure at least a small quantity of this remedy. The demand for it was so great in Germany that only a few favored ones were able to obtain any of it. Our experience with the ten little vials—which was all we could procure—was certainly very encouraging. Eight out of the ten cases in which it was administered, rapidly

dauern erwähnt wurde. Auf jeder Etage sind im Mittelpunkt des Gebäudes nach der Ostseite für diesen Zweck große offene Hallen reservirt, welche reichlichen Platz und frische, reine Luft für solche Patienten liefern.

Das gesammte erste Stockwerk des Hospitals erfährt eine fast vollständige Reconstruction und alle oft fühlbaren chemischen und medizinischen Untersuchungen, welche jetzt dort stattfinden müssen, werden hinfort in weniger prominente Räume verwiesen sein.

Eine der wichtigsten von allen Besserungen ist die Hinausschiebung des Operations-Pavillons um eine Distanz von 20 Fuß von seiner früheren Position. Der leere Raum, welcher hierdurch gewonnen wurde, ist zur Einrichtung von Zimmern für die Vorbereitung von Patienten vor der Operation, sowie zum Ruhen nach der Operation sehr glücklich benutzt worden, ebenso sind Gemächer zur Aufbewahrung und Reinigung der Instrumente, sowie für die Bequemlichkeit der Doktoren vorgesehen worden.

Es sind überhaupt alle Vorkehrungen und Einrichtungen behufs prompter Behandlung von Kranken und Verwundeten in unserm Hospital vermehrt und verbessert worden, um den fortwährend wachsenden Ansprüchen an dasselbe besser genügen zu können.

Das Vorstehende wird einen Begriff geben von dem was jetzt im Hospital geschaffen wird und wir hoffen, daß unsre Freunde selbst kommen und selbst sehen werden, wenn der Neubau äußerlich und innerlich vollendet sein wird.

Die Zahl der Aufnahmen im letzten Jahr war 2380. Hierzu kommen die vom Jahre 1893 verbleibenden 161, im Ganzen 2541. Im Kinderhospital des Mary J. Drexel Heim wurden aufgenommen 311, vom Jahre 1893 verblieben 30, im Ganzen 341. Im Kinderhospital kamen viele Unglücksfälle vor, welche stets unentgeltlich aufgenommen werden, und im Ganzen wurden in beiden Hospitälern 1345 Freipatienten behandelt. Die Besuche in den Kliniken des Hospitals waren 24,629 und im Kinderhospital 5298, im Ganzen 31,168, oder eine Vermehrung von 2097 Fällen.

Die Zunahme der chirurgischen Operationen ist das ganze Jahr hindurch bemerkenswerth gewesen. In der medizinischen Abtheilung wurde die Dr. Brandt'sche Bademethode gegen Nervenfieber mit günstigem Erfolg fortgesetzt. Diese Heilmethode ist zwar sehr beschwerlich für die Pflege, indem wiederholte Bäder bei Tag und bei Nacht erforderlich sind, dagegen sind jedoch die erreichten Resultate auch sehr ermuthigend. Das neue Mittel, genannt „Heil-Serum,“ welches von Dr. Emil Behring in Berlin gegen Diphtheritis, namentlich bei Kindern, gefunden und in Deutschland mit großem Erfolg in Anwendung gebracht worden ist, wurde durch unser Mitglied, Consul Meyer, bei uns eingeführt. Während seiner jüngsten Geschäftsreise gelang es ihm, durch persönlichen Besuch in

improved and, in a short time, entirely recovered. The two other cases, in which no good results followed, were old ones, and were considered hopeless from the time they came under our care. Before we venture to pronounce with perfect confidence on the value of this remedy, we shall require more trials and proofs of its virtue. These we hope to make before long, as another and better supply has been promised us.

The virulence of this dreadful disease has somewhat abated, though not before several of our Deaconesses were attacked by it. With speedy and careful treatment, however, they have all recovered. It is with great gratification that the Trustees are able to report that our energetic and faithful resident physician, Dr. S. B. Whiting, has also nearly recovered from this fatal disease. He had been very attentive to the children at the Isolating House, when he took it. His progress towards health was very slow, and it was only in an enfeebled condition that he was able at Christmas time to visit his home, at Cambridge, Mass.

Our Isolating House has again proved itself to be of immense advantage to our Institution, and has especially demonstrated its usefulness during the past season.

Our Medical Library is steadily increasing, and has become of great assistance to our resident physicians. The best and most useful works published in Germany are procured, as well as all the important publications in this country. When the improvements on the first floor are completed, better accommodations and ampler room will be provided for it.

The Subscribers' Sick Fund does not yet meet with that favor which it deserves. Its value cannot be properly understood. It is beyond doubt the best method of providing for one's self in case of sickness, and all of us are liable to this uncertain event at any time. The conditions of admission to the benefits secured by this fund are very liberal, and all persons who employ help of any kind should insist that their employees become subscribers to it. They can thus relieve themselves of what might otherwise prove a very unpleasant burden, but would nevertheless be a moral obligation.

Our donations and bequests during the past year were as follows :

den Farbwerken von Höchst, wo das Heil-Serum bereitet wird, ausnahmsweise 10 Fläschchen zu erlangen, welche mit erfreulichem Erfolg im Deutschen Hospital Anwendung gefunden haben, indem von 10 Fällen 8 prompte Besserung zeigten und bald gänzlich genasen, während die beiden andern Fälle schon als hoffnungslos betrachtet wurden, bevor sie unter die Behandlung der Aerzte kamen. Ob wir uns jedoch mit vollem Vertrauen zu Gunsten dieses neuen Mittels aussprechen können, müssen wir noch mehr Versuche damit anstellen und noch mehr Beweise seiner Heilkraft sammeln. Das hoffen wir binnen Kurzem thun zu können, nachdem uns eine neue und größere Zufuhr des Heil-Serums in Aussicht gestellt worden ist. Das bössartige Auftreten der schrecklichen Krankheit hat etwas abgenommen, jedoch nicht ohne auch einige unsrer Diaconissen zu ergreifen, welche durch prompte Anwendung des Mittels, vereint mit sorgfältiger Pflege, gerettet werden konnten. Mit großer Genugthuung können wir auch berichten, daß unser energischer und treuer Assistentz-Hausarzt, Dr. S. B. Whiting, seiner gänzlichen Herstellung von derselben heimtückischen Krankheit rasch entgegen schreitet. Er wurde von derselben ergriffen im Monat September, in der treuen Ausübung seines Berufes unter kranken Kindern im Isolirhaus und erst zu Weihnachten war er fähig, nach seiner Heimath in Cambridge, Mass., zurückzukehren.

Unser Isolirhaus hat sich wiederum von außerordentlichem Werth für unsre Anstalt bewiesen und seine Nützlichkeit wurde besonders während letzten Sommers und Herbstes wiederholt durch Thatfachen demonstriert.

Unsre Medizinische Bibliothek ist im steten Wachsen begriffen und gereicht unsern jungen Hausärzten zu größtem Nutzen und Belehrung. Die neuesten und besten deutschen medizinischen Werke wurden angekauft und zum Theil geschenkt, ebenso alle in diesem Lande erscheinenden wichtigen Publikationen. Ein neues größeres und den neuesten Anforderungen entsprechendes Bibliotheks-Zimmer ist im ersten Stockwerk des Hospitals in Vorbereitung.

Das so oft und dringend von uns empfohlene Kranken-Abonnement findet noch nicht diejenige Gunst im Publikum, welche diese für die arbeitende Klasse wohlthätige Einrichtung in der That verdient. Es ist ohne allen Zweifel die billigste Methode der persönlichen Fürsorge in Krankheitsfällen, denen wir alle fortwährend ausgesetzt sind. Die Bedingungen der Aufnahme in's Abonnement und Zulassung zu den Wohlthaten desselben sind äußerst liberal und alle Personen, welche Dienstboten, Arbeiter oder Angestellte irgend einer Art beschäftigen, sollten darauf dringen, daß ihre Leute Abonnenten werden, um sich im Krankheitsfall die freie Aufnahme und Behandlung im Deutschen Hospital zu sichern. Für den Arbeitgeber bedeutet es die Enthebung von einer Last

## DONATIONS received during the year 1894.

Consul Chas. H. Meyer, in honor of the Emperor's birthday.....	\$300 00	
Rev. Samuel Weinich.....	1 30	
Mrs. Henry Sibach.....	50	
Mrs. Elias Kuntz.....	50

Donation Box.....	66 29	
	<hr/>	\$540 09

## LEGACIES received during the year 1894.

Estate of James C. Smith.....	\$3000 00	
Estate of Catharine E. Bergner, less tax.....	950 00	
Estate of James Simpson.....	2500 00	
Estate of Robert Schultz.....	870 80	
Estate of Jacob Schandain.....	500 00	
Estate of Louis Bergdoll, net.....	1905 00	
Estate of Frederick Winheim, \$500, less tax...	475 00	
Estate of Robert Schutlz, Balance.....	1027 29	
	<hr/>	\$11,228 09

The *interest only* of the latter amount can be used for the maintenance of the Hospital.

Donation Day proved a great success. The handsome sum of \$11,285.21 was realized. The Trustees have reason to congratulate themselves on this, especially in view of the fact that when the new addition to the Hospital is finished, this spring, larger sums will be needed to meet the increased expenses. We hope our friends will appreciate our work and continue to aid us, for we are very far from being independent of public support.

The State of Pennsylvania has recognized the necessity of lending its powerful assistance to our work. We are grateful for what it has done, and venture to hope that it will continue its valuable aid, which we will need more than ever.

Our thanks are again due to the Pennsylvania and Lehigh Valley Railroad Companies for relieving us of part of our large expense for coal freight. The increased cost of fuel keeps pace with the enlargement of the buildings, and we will need and will strive to prove ourselves worthy of the continued liberality of these friendly transportation companies.

und schweren Verantwortlichkeit, wenn seine Untergebenen im Krankheitsfall bei uns freie Aufnahme im Abonnement finden können.

An Schenkungen und Vermächtnissen haben wir die folgenden zu verzeichnen :

Schenkungen im Laufe des Jahres 1894 :

„ Robert Schulz, Balance.....	1027 29
	————\$11,228 09

Nur die Zinsen dieses Kapitalbetrages können zum Unterhalt des Hospitals verbraucht werden.

Der Gabentag ist sehr erfolgreich ausgefallen. Die schöne Summe von \$11,285.21 wurde eingenommen und die Directoren haben alle Ursache sich zu diesem Ergebnis zu gratuliren, besonders in Hinsicht auf die stark vermehrten Summen, welche das Deutsche Hospital benöthigen wird, wenn sämtliche Neubauten und inneren Besserungen vollendet sein werden. Wir hoffen, daß unsere Freunde unser Werk in seinem ganzen Umfange würdigen und fortfahren werden uns zu helfen, denn wir sind noch weit davon entfernt uns unabhängig von öffentlicher Hülfe selbst genügen zu können.

Der Staat Pennsylvania hat die Nothwendigkeit, uns seine mächtige Hülfe zu schenken, in nobler Weise anerkannt. Wir sind ihm dankbar für das was er gethan und wagen es zu hoffen, daß er in seiner werthvollen

We are thankful to the clergy of all denominations who attend upon and give spiritual instruction and comfort to the sick and dying. Their frequent visits have had a most salutary influence not only upon the patients but upon all the other inmates of the institution.

The Ladies' Aid Society deserves a good share of our praise. These active helpers have been most assiduous in their work of replenishing and furnishing whatever was needed in the whole household.

Our attorney, Joseph G. Rosengarten, Esq., as heretofore, has willingly assisted in settling, to the full satisfaction of the Board, whatever legal difficulties have arisen.

Mr. Ellis D. Williams has always been ready to collect our little rents, etc. It has been a satisfaction to him to serve the German Hospital, and his kindness has relieved us of a great deal of trouble.

We regret that the Rev. Dr. A. Spaeth finally concluded to sever his connection with the Hospital and to resign from its Board of Trustees. Since his removal to Mt. Airy it would have proved too burdensome to continue his connection with us. We part with him with sorrow, but are glad to add that we have his assurance that he will always continue his friendly interest in our institution, of whose Board he was a useful member for a period of fourteen years.

The Rev. Adolph Hellwege has been elected in his place.

Mr. Nicholas Lennig has also been elected a Trustee as the successor of Mr. Anton Winters, whose death occurred on Thanksgiving Day, 1893.

Great credit is due to the reporters for the Press, who are ever ready to make known to the public what is being done at the Hospital.

Christmastide is always a very happy time with us. It was celebrated this year as usual with appropriate joyous exercises. Religious services were held in the different wards, gifts were bestowed, and all participated in the social cheer which marks the season.

In closing our annual statement we refer the kind reader to the very interesting reports of the Physicians, the Treasurer, and the Ladies' Aid Society.

The Board of Trustees,

JOHN D. LANKENAU,

*President.*

PHILADELPHIA, December 31, 1894.

Unterstützung fortfahren werde, welche wir in Zukunft mehr als je nöthig haben werden.

Unser Dank gebührt wiederum der Pennsylvania und der Lehigh Valley Eisenbahn-Compagnie für theilweise Erlassung der schweren Ausgaben für Kohlfrachten. Die vermehrten Unkosten für Brennmaterial halten Schritt mit der Vergrößerung der Gebäude, und wir haben es nöthig und wollen uns bemühen, uns der fortdauernden Liberalität dieser befreundeten Eisenbahn-Gesellschaften würdig zu zeigen.

Wir sind dankbar der Geistlichkeit aller Denominationen, welche den Kranken und Sterbenden in unserm Hospital geistlichen Zuspruch und Erquickung zu Theil werden lassen. Ihre häufigen Besuche haben einen höchst wohlthätigen Einfluß nicht allein auf die Patienten, sondern auch auf alle andern Insassen der Anstalt ausgeübt.

Den Damen des Hülfß-Vereins gebührt ein großer Theil unseres Lobes. Diese unermüdblichen Helferinnen waren stets bemüht, Vorräthe zu erneuern und anzuschaffen, was irgendwo im Haushalt von Nöthen war.

Unser geehrter Rechtsbeistand, Herr Joseph G. Rosengarten, hat uns auch in diesem Jahr bereitwillig in allen gesetzlichen Fragen und Schwierigkeiten beigestanden, welche im Laufe des Jahres entstanden sind.

Herr Ellis D. Williams war stets bereit, unsre Miethen einzuziehen. Es ist ihm stets eine Genugthuung gewesen, dem Hospital zu dienen, und seine Gefälligkeit hat uns manche Unannehmlichkeit erspart.

Wir bedauern, daß Herr Dr. A. Späth sich entschlossen hat, seine Stellung als Director des Hospitals zu resigniren. Die Verlegung seiner Wohnung und amtlichen Thätigkeit nach Mount Airy machte seine fernere Betheiligung an unserem Directorium zu beschwerlich. Wir scheiden von ihm mit schmerzlichen Gefühlen, gemildert durch seine Versicherung, daß er auch ferner ein freundliches Interesse für unsere Anstalt bewahren wird, von deren Verwaltungsrath er seit 14 Jahren ein hochgeschätztes Mitglied war.

Herr Pastor Adolph Hellwege, ist an Stelle von Dr. Späth in den Verwaltungsrath gewählt worden. Herr Nicholas Lennig ist ebenfalls zum Director gewählt worden, als Nachfolger von Herrn Anton Winters, dessen Tod am Gabentag des Jahres 1893 stattfand.

Große Anerkennung gebührt den Reporters für die Presse, welche stets bereit sind dem Publikum mitzutheilen was in unserm Hospital vorgeht.

Das Weihnachtsfest ist stets eine glückliche Zeit bei uns. Das Fest wurde auch in diesem Jahre in derselben feierlich-freudigen Weise begangen mit geistlichen Ansprachen in jedem Krankensaal unter leuchtenden Christbäumen und Geschenken nützlicher und schmackhafter Art für alle Kranken und gesunden Insassen der Anstalt.

Indem wir hiermit unsern jährlichen Bericht zum Schluß bringen, verweisen wir den freundlichen Leser auf die sehr interessanten Berichte der Aerzte, des Schatzmeisters und des Frauen-Hülfß-Vereins.

Im Auftrag des Verwaltungsrathes:

**John D. Lanfau,** Präsident.

# REPORT OF THE MEDICAL BOARD

FOR THE YEAR 1894.

---

TO THE BOARD OF TRUSTEES OF THE GERMAN HOSPITAL:

GENTLEMEN:—In accordance with the provisions of our by-laws we beg to submit herewith a report of the doings, work and results of your Medical Board. There was a general increase in the number of patients treated in the Hospital, in spite of the fact that much of its room was curtailed by the building operations of the new wing. A slight falling off in the number of medical cases cared for is accounted for by the noted diminution of cases of sunstroke usually brought here and treated by us. Aside from this the health of the city seems to have improved under the various sanitary measures instituted, so much so, that there was a considerable falling off of various infectious diseases. This has been especially the case with typhoid fever, which has furnished us a smaller contingent of patients than usual.

Our experience with diphtheria during the last year has been in a measure satisfactory, although it came very near costing the life of one of our most efficient and esteemed resident physicians. Dr. A. D. Whiting, while in charge of the surgical service, had to operate on the throat of a diphtheritic child, and while doing so was himself inoculated with the disease; for weeks he lingered at the verge of death, suffering from one of the most virulent attacks seen in this Hospital. His recovery was probably largely due to the excellent care he received at the hands of the sisters. Even to this date he has not completely recovered, but is in a fair way of doing so.

At that time the new diphtheria antitoxin could, unfortunately, not be obtained in America. Somewhat later we received, through the efforts of Consul Chas. H. Meyer, probably one of the first genuine lots of this now famous remedy.

As the spread of diphtheria with us at this time had been successfully arrested, a great portion of this rare and expensive remedy was placed at the disposal of the city hospital for contagious diseases, where it was used to great advantage.

It may be in place here to comment on the wisdom of your Board

# Bericht des Medizinischen Collegiums für das Jahr 1894.

An den Verwaltungsrath des Deutschen Hospitals.

Geehrte Herren!

Den Anordnungen unserer Nebengesetze gemäß erlauben wir uns hiermit Ihnen den Bericht über die Arbeit und die Erfolge des Medizinischen Collegiums zu erstatten. Die Gesamtanzahl der im Hospital behandelten Patienten ist auch in diesem Jahr wieder gestiegen, trotzdem daß wir, in Folge der Neubauten und Veränderungen, öfters die Aufnahme von Kranken beschränken mußten. Die Zahl der medizinischen Kranken ist etwas gefallen, wohl deshalb, daß weniger Fälle von Sonnenstich unter Behandlung kamen. Auch scheint es, daß die allgemeine Gesundheit, in Folge der besseren hygienischen Einrichtungen, sich in der ganzen Stadt gehoben hat, namentlich ist eine Abnahme der Fälle von Unterleibs-Typhus zu constatiren.

Eine Ausnahme hiervon machte die Diphtheritis. Eine ziemlich Anzahl kam bei uns vor; die Resultate waren im Ganzen befriedigend. Einer unserer Assistenz-Aerzte hätte beinahe sein Leben eingebüßt. Dr. A. D. Whiting inficirte sich, während er den Hals eines Diphtheritis-Patienten behandelte, sehr schwer; wochenlang schwebte sein Leben in ständiger Gefahr. Nur allmählig erholte er sich, und ist dieser günstige Ausgang gewiß zum großen Theil der unermüdlichen Sorgfalt der ihn pflegenden Schwestern zuzuschreiben.

Leider stand uns zur Zeit seiner Erkrankung das neue Diphtheritis-Heil-Serum noch nicht zur Verfügung; etwas später erhielten wir zuerst von allen andern Hospitälern dieser Stadt durch Vermittelung des Herrn Consul Meyer eine Anzahl Fläschchen von Behring's Heilmittel; die Erfahrungen damit waren so günstig, daß die Hoffnung berechtigt erscheint, daß diese Entdeckung die Verheerungen dieser mörderischen Seuche stark vermindern wird.

Die Einrichtung des bacteriologischen Laboratoriums, welches schon vor einigen Jahren in Stand gesetzt wurde, hat sich als ein Beweis von Weisheit und Voraussicht des Verwaltungsraths herausgestellt, denn erst jetzt wird ein solches für die Stadt von den Behörden empfohlen, und machen andere Hospitäler Anstalt solche für sich zu gründen. Unsere guten Einrichtungen haben in vielen Fällen dazu gedient, zweifelhafte Diagnosen aufzuklären, und wir haben uns stets Aerzten, die unsere Hülfe in dieser Beziehung wünschten, zur Verfügung gestellt.

Unsere Bibliothek wächst stetig; im nächsten Jahr soll dieselbe in einer günstigeren Lokalität untergebracht werden.

Unsere öffentlichen Kliniken, unter der Leitung unseres Oberhausarztes,

in, already several years ago, establishing the first chemical and bacteriological laboratory in connection with any hospital in the city, a practice which has only now been followed by other hospitals, and is being introduced for the city by the Board of Health. Our laboratory facilities in this respect have been freely offered and made use of by medical practitioners of this city in obscure cases of disease, only to be cleared up by bacteriological research. Our library has grown in its regular ratio, but we anticipate a marked increase both in volumes as well as in general use by its removal to its contemplated new quarters.

For the report of the out-patient departments, which have been so successfully managed by our Chief Resident Physician, we refer you to the respective pages on which it is found. The increased number of patients seeking their advantages is noticeable, and due in a large degree to the distress and poverty existing among the working classes.

Owing to the building now in course of erection and the extensive alterations and improvements of the operating-room and amphitheatre, which bid fair to make it one of the finest in the country, the educational features which hitherto had formed such an important part of our work had to be suspended for the time being, but with the increased facilities we hope to be able in the future to report marked progress in this respect.

The total number of patients treated in the Hospital, including the Children's Department of the Mary J. Drexel Home and the Isolating House, during the year 1894, was 2882, an increase of 147 over the preceding year; of these, 893 were medical, 992 surgical, 341 children, 16 isolated and 640 marine cases; cured or improved were 680 medical and 829 surgical patients. Of the deaths 120 were medical, 83 surgical and 18 marine cases. The number of visits to the Dispensaries was 31,168. For further Medical statistics we respectfully refer you to the tables arranged by the Chief Resident Physician and his assistants.

We take occasion to again thank you for the full and liberal support you have extended to us, and by which alone we were able to achieve the satisfactory results recorded in this report.

It is our pleasurable duty also to again acknowledge here the untiring zeal and aptitude of the nursing sisters, as superintended by the Sister Superior.

The results of the competitive examinations for the position of resident physician have been most satisfactory. Their term of service has been lengthened to two years, an innovation which has worked to greater advantage of the Hospital, while affording these physicians greater and more extended facilities for study and observation.

erfahren jedes Jahr mehr Zuspruch. — Daß so viele Leute unentgeltlich ärztlichen Rath bedürfen, ist ein trauriges Zeichen der allgemeinen Noth und Depression der Geschäfte.

Die üblichen medizinischen und chirurgischen Vorlesungen mußten dieses Jahr unterbleiben, wegen des Neubaus.

Der Operationsaal wird gänzlich restaurirt und wird, wenn vollendet, ohne Zweifel einer der schönsten und zweckmäßigsten seiner Art werden.

Die Gesamtzahl der im Deutschen Hospital, incl. der Kinder-Station im Mary J. Drexel Home, verpflegten Kranken im Jahr 1894 betrug 2,882, eine Zunahme von 147. Diese vertheilen sich wie folgt: Medizinische Fälle: 893; Chirurgische Fälle: 992; Kinder: 341; Seeleute: 640; Isolirt: 16; geheilt oder gebessert wurden 680 medizinische, und 829 chirurgische Fälle. Es starben 120 medizinische, 83 chirurgische, 18 Marine-Patienten und 19 Kinder. In den Kliniken wurden 31,168 Besuche gemacht. Weitere statistische Angaben bitten wir gefl. im Bericht des Oberhausarztes nachzulesen.

Wir benutzen auch diesmal die Gelegenheit dem Verwaltungsrath an dieser Stelle für die liberale Unterstützung unserer Arbeit zu danken, ohne dieselbe wäre es unmöglich gewesen, Resultate wie die hier berichteten zu erzielen.

Es gereicht uns zur angenehmen Pflicht, unserer Anerkennung der ausgezeichneten Arbeit der Schwestern unter Frau Oberins Leitung Ausdruck zu geben.

Die Dienstzeit der durch competitive Prüfung gewählten Assistenzärzte ist auf zwei Jahre verlängert worden. Diese Neuerung hat den doppelten Vortheil, dem Hospital bessere Assistenz zu verschaffen, und den betreffenden Ärzten eine gründlichere Ausbildung zu gewähren.

Die Zahl der Assistenzärzte ist durch Ernennung eines Arztes, der seine Zeit der pathologischen und chemischen Arbeit widmet, vermehrt worden.

Unser Oberhausarzt, Herr Dr. Carl Frese, hat mit gewohnter Competenz und Pflichttreue seines oft recht schwierigen Amtes gewaltet. Auch müssen wir die Tüchtigkeit und den Fleiß des Apothekers, Herrn M. J. Wilbert, lobend anerkennen.

Zum Schluß gestatten Sie uns Ihnen nochmals unseren wärmsten Dank für die vielen uns bewiesenen Unterstützungen und Höflichkeitsbeweise auszudrücken, und wir geben der Hoffnung Raum, daß auch im nächsten Jahr die herzlichen Beziehungen zwischen dem Verwaltungsrath und dem medizinischen Collegium zum Wohl des Deutschen Hospitals in alter Weise fortbestehen werden.

Hochachtungsvoll

Adam Trau, M.D.,

Vorsitzender des Medizinischen Collegiums.

O. Wolff, M.D.,

Sekretär.

By granting our request for a pathological resident your Board have given us the opportunity for better research into the intimate nature of diseases and their causes.

We feel it our duty to make favorable comment of the efficiency, skill and application of our Chief Resident, Dr. Carl Frese, as well as Mr. M. I. Wilbert, the able apothecary of the Hospital.

We finally beg you to accept our heartiest thanks and appreciation of the many courtesies shown to us by you, and trust that the cordial relations existing between us will be continued for the best interest of the German Hospital.

Respectfully submitted,

ADAM TRAU, M.D.,

*President Medical Board.*

L. WOLFF, M.D.,

*Secretary.*

# TABULAR STATEMENT OF CASES TREATED IN THE GERMAN HOSPITAL

# DISPENSARY SERVICE.

---

The service of the Dispensary is under the control of the Chief Resident Physician of the Hospital, assisted by the Resident Physicians of the House and the respective Chiefs and Assistants to Out-Patient Departments.

---

## **Medical Clinic.**

Every Tuesday and Friday at 10 A.M.

DR. HARVEY SHOEMAKER, 109 S. 20th Street.

DR. GEORGE WOODWARD, Willow Grove Ave., Chestnut Hill.

DR. ALFRED HAND, JR., 230 South 17th Street.

---

## **Surgical Clinic.**

Every Monday, Wednesday and Saturday at 10 A.M.

DR. GEO. A. BODAMER, 1219 N. 15th Street.

DR. GEO. G. ROSS, 637 N. 16th Street.

DR. A. D. WHITING.

---

## **Clinic for Diseases of Women.**

Every Monday and Thursday at 2 P.M.

DR. OTTO A. RATH, 185 Queen Lane, Schuylkill Falls.

---

## **Clinic for Diseases of the Eye.**

Every Tuesday and Friday at 1 P.M.  
and Monday and Wednesday at 12 M.

DR. EDWARD K. PERRINE, 1716 Chestnut Street.

DR. WM. RUOFF, 1318 N. 6th Street.

---

## **Clinic for Diseases of Throat, Nose and Ears.**

Every Tuesday and Friday at 1 P.M.

DR. ARTHUR A. BLISS, 1832 Race Street.

Laryngologist to the German Hospital.

DR. ROBERT S. J. MITCHESON, 1522 N. 15th Street.

DR. BARTON H. POTTS, 1035 Spruce Street.

---

## **Pathological Department.**

DR. ALFRED STENGEL, 332 S. 17th Street.

Pathologist to the German Hospital.

DR. S. S. Kneass, 261 S. 15th Street.

## ISOLATING HOUSE.

THE necessity for isolating hospital patients suffering from infectious or contagious diseases is self-evident. The infection is carried into the hospital probably always by visitors, and is therefore unavoidable. The inmates, being enfeebled from disease or injury, fall easy victims to such affections. To guard against possible infection some cases are isolated on suspicion, whereby greater security is obtained. Through the liberality of the President, Mr. John D. Lankenau, the present structure was erected in 1891.

During the year 1894, 16 cases were treated in the Isolating House.

The numbers are as follows :

Diphtheria, 4 ; facial erysipelas, 4 ; measles, 2 ; pediculosis vestimentorum, 1 ; whooping-cough, 5.

The patients in the Isolating House are treated by the Chief Resident Physician.

---

## LABORATORIES,

Situated on the ground floor of the Isolating House, were set in working order during the year 1892, and much important work has been done. Only the study of diseased tissues can lead to a rational treatment of disease ; this work is, therefore, of the utmost importance. Micro-organisms are generally the cause of disease, and their recognition and study is absolutely essential.

This work is, of course, very laborious, and requires special and costly apparatus, besides much tedious labor. So much work had to be done that it was found necessary to appoint a resident whose sole duty it is to attend to the pathological work. Most of the researches in these matters have been made in Europe, especially Germany. But it is hoped that in the future more will be done here ; and, therefore, the foresight and wisdom shown by the Board of Trustees, in placing well-fitted rooms and apparatus at the disposal of the physicians, cannot be too highly appreciated. The work carried on in the Laboratories is divided into Pathological, Photographic, Microscopical, Chemical and Bacteriological.

The Museum is in thorough order. The numerous specimens are arranged systematically. Many very rare examples have been added during the last year.

## MEDICAL LIBRARY.

To the Medical Library the following works have been added :

Medical News, American Journal of Medical Sciences, New Remedies, Berliner Klinische Wochenschrift, Wiener Medizinische Presse, Centralblatt für die gesammte Medizin, Centralblatt für Bakteriologie, Archiv für Kinderheilkunde, Archiv für Experimentelle Pathologie and Pharmakologie, Berliner Klinik, Wiener Klinik. Abhandlung über wichtige Kapitel aus der medizinischen Praxis; Biedert, Lehrbuch der Kinderkrankheiten; Boas, Magenkrankheiten; Börner, Reichs-Medizinal-Kalender für 1894, Ausgabe B (3 parts); Bunge, Lehrbuch der physiologisch-pathologischen Chemie; Fritsch, Bericht aus der Breslauer Frauenklinik, 1891-92; Fritsch, Krankheiten der Frauen; Goldschneider, Ueber den Schmerz; Hagemeyer, Krankenhaus am Urban in Berlin; Zuelzer-Oberländer, Klinisches Handbuch der Harn- und Sexualorgane; Hauser, Grundriss der Kinderheilkunde; Hegar, Geschlechtstrieb; Heim, Lehrbuch der bakteriologischen Unterscheidung; Henoch, Vorlesungen über Kinderkrankheiten; Hoffa, Lehrbuch der orthopädischen Chirurgie; Israel, Erfahrungen über Nierenchirurgie; Israel, Practicum der pathologischen Histologie; Jacobsen, Lehrbuch der Ohrenheilkunde; Jahrbuch der praktischen Medizin, 1894; Jahrbuch der Kinderheilkunde, vol. 37 (4 parts); Joseph, Lehrbuch der Haut- und Geschlechtskrankheiten, 2 vols.; Klebs, Allgemeine Pathologie, 2 vols.; Klemperer, Klinische Diagnostik; Klemperer & Levy, Grundriss der klinischen Bakteriologie; Kobert, Compendium der praktischen Toxicologie; Kraft-Ebing, Der Conträrsexuale vor dem Strafrichter; Landmann, Erziehung kleiner Kinder; Leser, Spezielle Chirurgie, 2 vols.; Leyden, Prognose der Herzkrankheiten; Leyden, Tabes dorsalis; Mathou, Chirurgische Nachbehandlung; Möbius, Diagnostik der Nervenkrankheiten; Müller, Zulassung der Frauen zum Studium der Medizin; Neisser, Die paralytischen Anfälle; Neunmeister, Lehrbuch der physiologischen Chemie; Noorden, Pathologie des Stoffwechsels; Posner, Diagnostik der Harnkrankheiten; Rabe, Die modernen Fiebertheorien; Rosenstein, Pathologie der Nierenkrankheiten; Schleich, Schmerzlose Operationen; Seiler, Leitfaden der Krankenpflege; Sonnenburg, Pathologie der Perityphlitis; Strümpell, Ueber die Alkoholfrage vom ärztlichen Standpunkt aus; Strümpell, Lehrbuch der speciellen Pathologie und Therapie der inneren Krankheiten; Skékely, Behandlung der tuberculösen Lungenschwindsucht; Vierordt, Anatomische, etc., Daten und Tabellen.

## MEDICAL APPLIANCES.

Blood-counting and testing apparatus, Polariscopes, for detection and estimation of sugar in the urine, Esbach's Albuminometers, Microscopical lenses, and apparatus for Microphotography, Electrical Brushes. The complete Electrical Outfit, in connection with the Electric Lighting plant, has worked entirely satisfactory.

---

## SURGICAL INSTRUMENTS AND APPLIANCES.

Further additions to the Surgical Armamentarium have been made, notably, steam sterilizers for surgical dressings, sterilizers for instruments, irrigators with stands, a Von Trendelenburg operating table for special operations, minor operating instruments, and bone instruments; also four rolling stretchers. The number of Surgical instruments used in the Operating Room and Dispensaries is now about 1217.

# In Memoriam.

# STANDING COMMITTEES FOR 1895.

---

## I. FINANCE.

*Chairman:* E. G. Reyenthaler, Cynwyd, Montgomery Co.  
Chas. A. Woerwag, Chestnut and 5th Sts.  
Geo. W. Bremer, 2024 Spring Garden St.

## II. HOUSE.

*Chairman:* G. A. Schwartz, 1006 Chestnut St.  
J. Henry Tilge, 306 New St.  
Christian Gross, 3811 Haverford Road.  
H. D. Justi, 1301 Arch St.

## III. MEDICAL.

*Chairman:* Chas. H. Meyer, 227 Chestnut St.  
Theodore Bremer, 322 North 3d St.  
Nicholas Lennig, 112 S. Front St.  
Rev. Dr. Samuel Laird, 1314 Spring Garden St.

## IV. PRINTING.

*Chairman:* Rev. F. Wischan, 726 N. 7th St.  
M. Richards Mucklé, Ledger Office.  
Wm. N. Mencke, 804 Arch St.  
Rev. A. Hellwege, Roxborough.

# MONTHLY VISITING COMMITTEES FOR 1895.

---

## January.

E. G. Reyenthaler.  
Henry D. Justi.  
G. A. Schwarz.  
Rev. F. Wischan.

## February.

Chas. H. Meyer.  
Henry D. Justi.  
Rev. F. Wischan.  
E. G. Reyenthaler.

## March.

Rev. F. Wischan.  
E. G. Reyenthaler.  
Theo. Bremer.  
Henry D. Justi.

## April.

Rev. A. Hellwege.  
Theo. Bremer.  
George W. Bremer.  
E. G. Reyenthaler.

## May.

Nicholas Lennig.  
Rev. A. Hellwege.  
Theo. Bremer.  
George W. Bremer.

## June.

Nicholas Lennig.  
Chr. Gross.  
Rev. A. Hellwege.  
E. G. Reyenthaler.

## July.

Nicholas Lennig.  
Chr. Gross.  
Theo. Bremer.  
George W. Bremer.

## August.

Chr. Gross.  
E. G. Reyenthaler.  
G. A. Schwarz.  
George W. Bremer.

## September.

Chr. Gross.  
G. A. Schwarz.  
Rev. Dr. Samuel Laird.  
J. Henry Tilge.

## October.

G. A. Schwarz.  
Rev. Dr. Samuel Laird.  
J. Henry Tilge.  
Nicholas Lennig.

## November.

Chas. H. Meyer.  
Henry D. Justi.  
Rev. Dr. Samuel Laird.  
J. Henry Tilge.

## December.

Chas. H. Meyer.  
Henry D. Justi.  
J. Henry Tilge.  
Rev. Dr. Samuel Laird.

# BOARD OF TRUSTEES.

---

Elected at the meeting of the Corporation held January 14, 1895.

## For Eight Years :

Geo. W. Bremer,

E. G. Reyenthaler.

---

Continue in Office :

## For One Year :

Christian Gross,

Theo. Bremer.

## For Two Years :

Chas. A. Woerwag,

Rev. F. Wischan.

## For Three Years :

M. Richards Mucklé,

Rev. A. Hellwege.

## For Four Years :

John D. Lankenau,

Rev. Dr. Saml. Laird.

## For Five Years :

Henry D. Justi,

Chas. H. Meyer.

## For Six Years :

G. A. Schwarz,

Nicholas Lennig.

## For Seven Years :

Wm. N. Mencke,

J. Henry Tilge.

## LIFE MEMBERS.

### FORM OF BEQUEST OF PERSONAL ESTATE.

I give and bequeath to the German Hospital of the City of Philadelphia, a corporation created in 1860, the sum of \_\_\_\_\_ to be added to its capital stock  
or,  
to be applied to the support of the same.

\_\_\_\_\_

### FORM OF BEQUEST OF REAL ESTATE.

I give and devise to the German Hospital of the City of Philadelphia, a corporation created in the year 1860, all that, etc. (here describe the property).

\_\_\_\_\_

### FORM OF BEQUEST FOR THE ENDOWMENT OF A FREE BED.

I give, devise and bequeath to the German Hospital of the City of Philadelphia the sum of five thousand dollars, \_\_\_\_\_ for the Endowment of a Free Bed.

\_\_\_\_\_

### FORM OF CERTIFICATE TO BE GIVEN TO THE DONOR OF A FREE BED.

This is to certify that \_\_\_\_\_  
has paid into the Treasury of the German Hospital of the City of Philadelphia five thousand dollars, to found the \_\_\_\_\_ free bed for \_\_\_\_\_ heirs and successors. The holder of this certificate is permanently entitled to have one patient kept there for gratuitous medical treatment, subject, however, to the Rules and Regulations which the Trustees of the said German Hospital may from time to time establish; it likewise empowers the holder to transfer the privilege on the books of the German Hospital, or by any other proper instrument of writing, to such persons as \_\_\_\_\_ may designate and appoint by \_\_\_\_\_ last will and testament.

In witness whereof the said German Hospital has hereunto caused the hands of its President, Secretary and Treasurer to be set and its corporate seal to be affixed the \_\_\_\_\_ day of \_\_\_\_\_ in the year of our Lord one thousand \_\_\_\_\_ hundred and \_\_\_\_\_

\_\_\_\_\_ *Pres.*

\_\_\_\_\_ *Sec.*

\_\_\_\_\_ *Treas.*

## MEMBERSHIPS.

**I. Members of the Hospital Association.**—1. Persons desiring to become members of the Hospital Association must be proposed at a regular meeting of the Association or Board of Trustees, and by a majority of votes can be elected at this or any subsequent meeting.

2. The annual subscription is \$10.00. Male members who are of age and not in arrears with their dues have the right to vote.

**II. Life Membership.**—Persons who after their admission pay the sum of \$50.00 become life members, and have as such the same rights as contributing members. Their names shall remain continuously on the membership list.

**III. Societies** may become life members by paying the sum of \$100. These Societies have the privilege to be represented by their delegates, who in turn may have the right of one vote at the meetings of the Association.

## MEMBERS.

Life Members, . . . . .	263
Yearly Contributing Members, . . . . .	89
Subscribers to the Sick Fund, . . . . .	178

## ASSOCIATIONS.

German Society of Pennsylvania.

De Kalb Lodge, No. 174, I. O. O. F.

Hermann Lodge, No. 125, F. & A. M.

Cabinetmakers' Beneficial Society, No. 1.

Canstatter Volksfest-Verein.

Wm. Sellers & Co., Incorporated, 1600 Hamilton Street.

J. & P. Baltz Brewing Company.

## VISITING DAYS.

Sundays, from 2 to 3 P.M.

Tuesdays and Thursdays, from 3 to 4 P.M.

THE BOARD OF TRUSTEES OF THE GERMAN HOSPITAL  
OF THE CITY OF PHILADELPHIA STRONGLY RECOM-  
MEND THE FOLLOWING ADVANTAGES  
OFFERED TO THE PUBLIC.

**Mill and Factory Owners, Lodges and Beneficial Associations** can secure a bed at the German Hospital for 365 days by paying \$200, and upon averaging the days may have several patients in the Hospital at the same time.

**Subscription Books** can be obtained by working people of both sexes, up to the age of fifty, subject to the regulations of the Hospital, whereby, on paying an initiation fee of one dollar and monthly installments of fifty cents, each subscriber may be treated in case of sickness entirely free of further charge. Heads of families and owners of factories should particularly recommend to their servants and employés to avail themselves of this excellent facility.

---

**Spezielle Vortheile, welche dem Publikum im Deutschen  
Hospital geboten werden.**

**Fabrikbesitzer und große Unternehmer, sowie Logen und Vereine,** können unter Zahlung von 200 Dollars per Jahr das Recht erwerben, ein Bett für 365 Tage zu belegen, wobei es erlaubt ist, mehrere Betten auf einmal zu belegen, wenn nur die Durchschnittszahl 365 im Jahre nicht überschritten wird.

**Kranken-Abonnements.** Für die arbeitenden Klassen besteht die Wohlthat des Kranken-Abonnements, wodurch jeder Betheiligte nach Zahlung von einem Dollar Aufnahmegebühr und monatlicher Einzahlung von 50 Cents berechtigt ist, im Hospital behandelt zu werden, ohne andere Kosten irgend welcher Art. Personen beiderlei Geschlechts können aufgenommen werden bis zum 50. Lebensjahre, worüber die näheren Bedingungen im Hospital zu erfahren sind. Familienväter und Arbeitgeber sollten diese wohlthätige Einrichtung ihren Dienstboten und Arbeitern dringend empfehlen.

# AMENDED CHARTER

## OF THE

### GERMAN HOSPITAL OF THE CITY OF PHILADELPHIA.

---

The name of this Corporation shall be the "German Hospital of the City of Philadelphia."

SECTION 1. The objects of this Corporation are to provide medical and surgical aid and nursing in the wards of the Hospital for the sick and disabled, with a view to admitting the poor without charge, as far as the means of the Hospital will allow, and to care for aged and infirm men and women, and to give instruction in the science of medicine.

SEC. 2. Patients shall be admitted irrespective of nationality, creed, or color.

SEC. 3. Members shall be elected at the stated meetings of the Corporation of the Board of Trustees by a majority of those present. The initiation fee and annual dues shall be regulated by the By-Laws.

SEC. 4. Any member who is a fit and suitable person for the position, and who shall contribute Twenty-five Dollars, and who is a resident of Philadelphia, shall be eligible as a Trustee for the term of his election.

SEC. 5. The Corporation hereby established shall be entitled to receive donations, legacies and devises of real estate, and shall apply the same to its general corporate purposes.

SEC. 6. The government of this Corporation shall be vested in a Board of sixteen Trustees, three of whom shall be ministers of the Lutheran Church, recognized by the Evangelical Lutheran Ministerium of Pennsylvania and adjacent States, who shall be elected at the next annual meeting of the Corporation on the second Monday of January, A.D., 1883, in eight classes of two each, to serve for the periods of one, two, three, four, five, six, seven and eight years respectively; and at each subsequent annual meeting of the Corporation two Trustees shall be elected for the term of eight years to fill the places of the two Trustees whose terms expire. The Board of Trustees shall elect a President, Vice-President, Secretary, Treasurer, Solicitor, and such

other officers as may be deemed necessary, and for such terms as the By-Laws shall prescribe, and shall have power to fill vacancies in its own body until the next annual election. No real estate of the Corporation shall be sold without the concurrence of ten Trustees present at the meeting at which such sale is ordered.

SEC. 7. The Board of Trustees shall choose at their first meeting after their election, or at such other time as they may appoint, such number of physicians, surgeons and obstetricians as they shall deem sufficient to form the Medical Board. The Board of Trustees shall have the power of removal and of filling vacancies in said Medical Board. The entire medical care of the patients, and the general management of the Corporation shall be regulated by such By-Laws and Rules as the Board of Trustees may adopt.

SEC. 8. The said Corporation is also authorized and empowered to establish, in connection with the Hospital, a department for the education of students in the science of medicine.

SEC. 9. The said Corporation is also authorized and empowered to establish, maintain and manage a Home, under the name of "The Mary J. Drexel Home," for the reception and support of well-recommended, well-behaved, perfectly sober and respectable aged couples, and aged single men and women of German birth or descent, not suffering from any obnoxious or contagious disease, to be admitted under regulations of the Board of Trustees, on payment of a sum to be fixed by said Board.

The said Corporation is also authorized and empowered to let for the term of 999 years, at an annual rental of One Dollar, and upon such terms and conditions, and with such privileges as may be deemed advisable, any portion of the grounds of the German Hospital of the City of Philadelphia to any Corporation now or hereafter to be organized, which by its charter or articles of association shall be authorized and empowered to establish, maintain and manage, first, a Home of the same character and description as the Mary J. Drexel Home aforesaid, and second, a Mother House or Institution for the maintenance and education of Deaconesses:

Provided, that the Board of Trustees or Managers of the Corporation to whom such lease shall be made shall at all times contain three members of the Board of Trustees of the said German Hospital of the City of Philadelphia.

SEC. 10. Amendments to the Charter may be proposed at any annual meeting of the Corporation, to be held on the second Monday of January in each year, but shall not be acted upon until the next annual

meeting, and they shall not be adopted unless they be approved by two-thirds of the members present.

SEC. 11. This Charter shall be in lieu of the Amended Charter, approved on the Twenty-second day of December, A.D. 1877, by the Court of Common Pleas No. 1, for the County of Philadelphia, recorded in Charter Book, Vol. 3, Page 608, on the Twenty-first day of January, A.D. 1878, and of the Amended Charter approved on the first day of December, 1882, so far as it is altered or supplied, and in all other respects the rights, powers, franchises and privileges conferred on the said Corporation by virtue of the Act of Assembly of the Second of April, A.D. 1860, incorporating the said German Hospital, and the amendments thereto shall be and remain therewith.

Amended Charter approved by the Court of Common Pleas No. 1, December 1st, 1882.

Amendment to Sec. IX adopted by the Corporation at their Annual Meeting, held January 10th, 1887.
